Good News For Homemakers

Looking for ways to save gas and money? One of the simplest solutions is to drive your car a little less. I want to share with you this week seven ideas you can use to keep your foot off the gas and more money in your pocket. They are as follows:

1. Call ahead to be sure you aren't wasting gas on an unnecessary trip. On the average, a wasted trip costs you at least $1.00 worth of gas.
2. Shop, bank and pay your bills by mail. A 15 cent stamp is a lot cheaper than a gallon of gas.
3. Ride a bike or take a hike. You will feel more fit and you will have more money to spend when you get where you are going since you didn't waste it on gasoline. Homemakers, during the beautiful fall weather, it's a great time for a family outing, a hike through the woods or a good picnic if it's still warm enough.
4. Ride to work with a friend or neighbor just one day a week, and you can save at least $100 worth of gas every year. Please car pool whenever possible. Let your neighbors and friends know when you are going to the city shopping or when you are going to do things that require an extra amount of gas. Share your car with them.
5. Take public transportation as often as you can. You can save gas and help reduce air pollution.
6. Set an example by not going over 55 miles an hour on the highway. We know, and it has been proven without a doubt, that 55 miles per hour uses less gas than when your foot gets heavy and you accelerate to 60 or 65 miles per hour.
7. In your family, adapt a conserving attitude toward using the vehicles. It is most important that all of us develop an attitude of conservation if we are going to have enough gas to last us through the years.

In the days of energy and money shortages, we need to all economize wherever and when-ever possible. If everyone does their fair share, you would be surprised what you can save in your family.

Inflation Fighting Hint for the Week: Do you know that hotdogs are an economical buy and a good source of protein? According to the National Livestock and Meat Board's statistics, US meat processors manufactured more than 1.9 billion pounds of hotdogs in 1978. That amounts to 19 billion hotdogs, or 87 per person per year. How many did you eat last year? The average hotdog contains 150 calories, about the same amount as 3 ounces of lean hamburger, corn beef, tuna fish or veal. One hotdog contains approximately the same number of calories as two boiled eggs, one cup whole milk, one slice of pizza, one scoop of ice cream or 10 french fried potatoes.

Each hotdog contains 5 to 7 grams of protein, which is about the same as 1 egg, 2 slices of bacon, 2 slices of bread or 1 ounce of cheese.

Why don't you fight inflation and serve your family hotdogs at least once a week. There are many ways that you can fix hotdogs that are creative and different. They are delicious in casseroles, creole or on a bun.

Homemakers, if you have an inflation fighting idea, why not share it with us so we can share it with our readers.

If you have a homemaking question or problem, you may call us at 352-5244 or write us at P. O. Box 488, Appomattox, Va. 24522. Have a good week!

Recipe of the Week
Spicy Carrot Cake

1½ cups salad oil
2 cups granulated sugar
4 egg yolks, unbeaten
5 tablespoons hot water
2½ cups sifted all purpose flour
1½ teaspoons double acting baking powder
½ teaspoon baking soda
¾ teaspoon salt
1 teaspoon nutmeg
1 teaspoon cinnamon
1 teaspoon ground cloves
1½ cups grated raw carrots
1 cup chopped pecans (or black walnuts)
4 egg whites, unbeaten

1. Start heating oven to 350°F. Grease well, then flour 10 x 4½ inch cast-aluminum bundt cake pan.
2. In large bowl, with mixer at medium speed, cream salad oil and sugar until well mixed. Beat in egg yolks, one at a time, beating well after each addition; beat in hot water.
3. Sift flour with baking powder, baking soda, salt, nutmeg, cinnamon, and cloves; beat into egg mixture. Stir in carrots and pecans or walnuts.
4. Beat egg whites until soft peaks form; fold into batter. Turn into prepared pan.
5. Bake 60 to 70 minutes, or until cake tester, inserted in center, comes out clean.
6. Cool in pan 15 minutes, then remove from pan and finish cooling on wire rack.

Many thanks to Geraldine Marshall for sharing this delicious cake recipe with us. As an inflation fighter, why not make 2 cakes simultaneously and bake them at the same time. Do not double the recipe.

Fidelity's 5.25% Christmas Club... For the kind of Christmas you remember all your life.

Member FDIC

Take a minute to think about some of the "special" Christmases in your life. Maybe the one when the kids got the puppy that was a member of the family for eighteen years. Or the Christmas reunion, when all the aunts and cousins and grandparents came—and you couldn't walk for kids and presents. Or the many times the two of you danced to the Bing Crosby Christmas album, all alone, by the light of the tree. Special holidays, to dream of year after year. At Fidelity American Bank, nothing makes us happier than playing a part in somebody's "special" Christmas. Next year, let us be part of yours. Simply open a Fidelity Christmas Club, add to it here and there during the year and, when it's paid up, get back all your money and 5.25% interest...just in time to make next Christmas as nice as all the ones in your dreams.
